

THERMAL CAMERA SOLUTION BODY TEMPERATURE MEASUREMENT

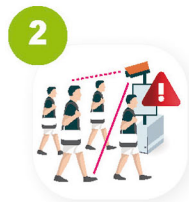

How it Works?

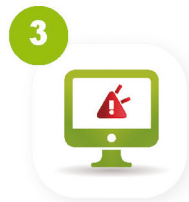

The system can monitor people who walk past and detect a person with abnormal body temperature, and Trigger alarm to alert personnel.

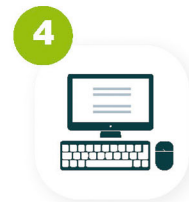

Monitor

Detection

Real-time alarm alert

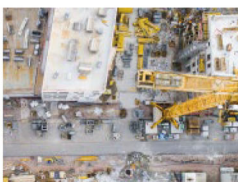

Management

Applications

Shopping Mall

Construction Site

Office Lobby

Hospital

School

Child Care Center

Thermal Camera

The Thermal Camera can scan multiple human temperatures with real-time temperature measurement and rapid detection. It enables to set optimal detection distance (up to 5m) and temperature detection range.

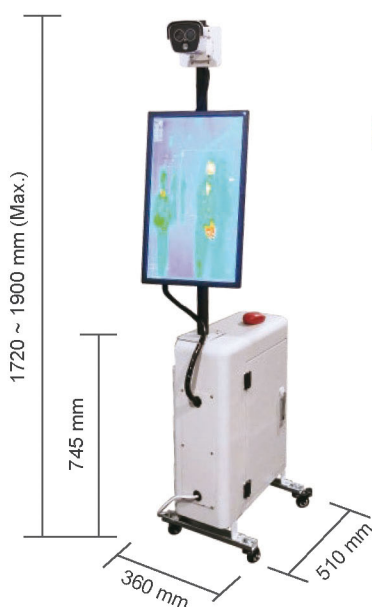

Alarm Attention

The system provides intelligent alarm function with accurate and real-time alarm when abnormal temperature is detected.

Thermal image Capture & Designed Portal

- ✓ Real-time human temperature displaying
- ✓ Intelligent alarm function
- ✓ Snap-shot of person with abnormal temperature detected.
- ✓ Bi-spectrum image fusion, picture in picture preview.
- ✓ High sensitivity sensor
- ✓ Multi thermal camera connection, event log with outstanding video capture for review.

Body Temperature Detection Tower

- ✓ Streamlined design, with high mobility capability
- ✓ Ultra lightweight
- ✓ Long detection range (up to 5M)
- ✓ Equipped with designed portal
- ✓ Package with IPS LCD and processing PC
